## Company Information

- **Company Name:** Ehdas Omran Sepahan
- **Company Type:** Private Equity
- **Date of Establishment:** March 2007
- **Phone Number:** +98-3134598269
- **Fax Number:** +98-3134598270
- **Web Site:** [www.eoseng.co](http://www.eoseng.co)
- **Email Address:** [info@EHDASOMRAN.com](mailto:info@EHDASOMRAN.com) & [pourbandarimansour@gmail.com](mailto:pourbandarimansour@gmail.com)
- **Address & Location:** No.26, Fourth floor, Parsian complex, Between falatoori & Abureihan square, North Eshragh Street, Kave Blvd., Esfahan, Iran.

## Company Services

### Executive & Technical Services

- ✓ Equipment installation & commissioning services
- ✓ Steel structure installation services
- ✓ Piping & process execution services
- ✓ Electrical and instruments execution services
- ✓ Painting & Refractory & Insulation Services

## Company Clients

## Company Projects

**Project Name:**

**Kharame Pelletizing Plant**

**Client:**

**Fakoor Sanat Tehran Company**

**Project Date:**

**Start date: March 2025**

**Duration: 10 month**

**Contract Subject:**

Installation and commissioning of mechanical equipment , steel structures , and process and dust collector ducts for the construction of a 12,000-ton Kharameh pelletizing plant with a nominal capacity of 2.5 million tons per year using the Lurgi-Dravó method and designed by Tehran Fakoor Sanat Company in cooperation with the Austrian PRIMETALS Company , located in Kharameh County , Fars Province.

**Project Name:****Foulad Mashiz Bardsir project****Client:****Sepanta sanat Pishtazan Omid****Project Date:****Start date: July 2024****Duration: 6 month****Contract Subject:**

Installation of steel structure and cover plate and gas generator equipment and auxiliary system and extension bay of Foulad Mashiz Bardsir project in the amount of approximately 725 tons and the implementation of the gas line of Foulad Mashiz project in the amount of approximately 11000 inches of piping diameter and cold commissioning and hot commissioning of project. Instruments installation and cabling and so on...

**Project Name:**

## Slide Gates of Noorin Project

**Client:**

Farayand karan Noorin Steel  
Factory

**Project Date:**

Start date: July 2024

Duration: 2 month

**Contract Subject:**

Execution of cutting, installation, welding and grinding operations, including argon porous plugs and base plates, slide gates mechanism of melt shop ladles 7 sets.  
Design and engineering by Sarralle company from Spain.

Ehdas Omran Sepahan Co.

+983134598269-70

INFO@EHDASOMRAN.COM

**Project Name:**

## Dedusting system of DRI plant of Tuba Project in Sirjan

**Client:**

Aria Hadid Mining and Metal  
Engineering and Construction  
Company (MMTE)

**Project Date:**

Start date: June 2024

Duration: 6 month

**Contract Subject:**

Installation of steel structure and equipment for dust collection system of Tubi Sirjan project with an approximate weight of 600 tons.

Ehdas Omran Sepahan Co.

+983134598269-70

INFO@EHDASOMRAN.COM

**Project Name:**

## Air coolers of DRI plant of Tuba Project in Sirjan

**Client:**

Mines & Metal Technological  
Engineering (MMTE)

**Project Date:**

Start date: May 2024

Duration: 6 month

**Contract Subject:**

Installation of steel structure , piping and equipment  
of air coolers of Tubi Sirjan project with an  
approximate weight of 997 tons.

**Project Name:**

## Hot commissioning of Jahan Foulad Sirjan DRI phase 2

**Client:**

Jahan Fulad Sirjan and  
MMTE

**Project Date:**

Start date: April 2024

Duration: 3 month

**Contract Subject:**

Provision of man power in order to speed up the hot commissioning operation of Jahan Fould Sirjan Direct Reduction Project (Phase 2) in the amount of approximately 69,700 man-hours.

**Project Name:**

## Direct Reduction of South Kaveh Steel Project (SKS)

**Client:**

Aria Hadid Mining and Metal  
Engineering and Construction  
Company (MMTE)

**Project Date:**

Start date: January 2024

Duration: 13 month

**Contract Subject:**

Installation of equipment and steel structure in the Core area of the direct reduction unit of South Kaveh Steel Project (SKS) with an approximate weight of 5500 tons.

Construction and installation of Storage bins with approximately weight 600 tons.

**Project Name:**

## Shadegan steel plant Billet Casting Project

**Client:**

Gostaresh Steel Industries  
GSI

**Project Date:****Start Date:** May 2023**Duration:** 9 month**Contract Subject:**

The operation of installing mechanical equipment, piping, electrical and instruments of the Shadegan steel project completely and based on the specifications, work details, drawings and technical specifications along with the installation instructions with an approximate weight of 1200 tons. Design by Danieli Company in Italy.

**Ehdas Omran Sepahan Co.**

INFO@EHDASOMRAN.COM

**Project Name:**

## Installation and Commissioning of Mega Module of TUBA DRI Plant

**Client:**

Mines & Metal Technological  
Engineering Company (MMTE)

**Project Date:**

Start Date: March 2023

Duration: 13 month

**Contract Subject:**

Installation of mechanical equipment and piping execution and pickling and flushing of hydraulic lines of DRI furnace and Reformer catalyst charging with cold and hot commissioning with approximately 50.000 Man hours.

Ehdas Omran Sepahan Co.

+983134598269-70

**Project Name:****Gol-gohar Sirjan iron and steel development oxygen plant project****Client:**Fakoor Sanat Tehran Co.  
Mashin sazi vizheh Co.**Project Date:**Start Date: November 2020  
Duration: 10 Month**Contract Subject:**

The operation of implementing 30,000 inches of piping diameter and installing about 2,018 tons of oxygen mechanical equipment of the Gol-gohar iron and steel development plant along with the construction of complete three external body of Cold Box equipment in the workshop.

**Project Name:**

## Gol-gohar Sirjan Steel making project

**Client:**

Fakoor Sanat Tehran Co.  
Foolad Gostaresh Co.

**Project Date:**

Start Date: April 2021  
Duration: 11 Month

**Contract Subject:**

Installation of mechanical equipment of electric arc furnaces and hot rolling furnaces of Gol-Gohar Sirjan steel making project with an approximate weight of 1200 tons. Designed by Sarralle Company in Spain.

**Project Name:**

## Electric Arc Furnace of Qaenat Steel Complex

**Client:**

IRITEC

Ab Rah Saze (ARAS Co.)

**Project**

Start Date: April 2020

Duration: 7 Month

**Contract Subject:**

Assembly, welding and installation operations and delivery of all documents related to the electric arc furnace of Foolad Qaenat. Designed by Tenova company in Italy.

## Air Separation Plant (ASP)

**Project Name:**

**Client:**

Arvand Jahan Ara Steel Company

**Project Date:**

Start Date: December 2019

Duration: 14 Month

**Contract Subject:**

Installation and commissioning operations and cooperation in the commissioning of air separation unit equipments with weight around 810 tons of mechanical equipment installation, 25,000 inches of piping diameter, 24 km of electrical cabling and instruments of the Air Separation Plant (ASP) of Foulad Jahan Ara Arvand Khorramshahr. Designed by SIAD Company in Italy.

**Project Name:**

## Compressed Air System

**Client:**

Arvand Jahan Ara Steel Company

**Project Date:**

Start Date: September 2019

Duration: 23 Month

**Contract Subject:**

Installation and commissioning operations and cooperation in the commissioning of compressed air station equipment including 80 tons of mechanical equipment installation, 4000 inches of piping diameter, 5 km of electrical cabling and instruments of Compressed Air System Unit (CAS) Jahan Ara Arvand Khoramshahr Steel Company.

**Project Name:**

## Stone crusher and material handling project (GOLFA) Gol-Gohar Sirjan

**Client:**

Asfalt Tous Company  
Avijeh Sanat Toos Co.

**Project Date:**

Start Date: July 2019  
Duration: 12 Month

**Contract Subject:**

Installation and pre-commissioning of the mechanical equipment of the GOLFA stone crusher project and the 911 transmission line with an approximate weight of 4850 tons

Ehdas Omran Sepahan Co.

**Project Name:**

## Melt shop & Electric Arc Furnace

**Client:**

Arvand Jahan Ara Steel Company

**Project Date:**

Start Date: November 2018

Duration: 18 Month

**Contract Subject:**

Installation and Pre commissioning and cooperation in the commissioning of equipment of the steel making plant Package C2 including the installation of mechanical equipment with weight approximately 3000 tons, the operation of implementing 40000 inches of piping diameter, fireproofing, electricity and instruments of the EAF and LF steel making plant in Arvand Jahan Ara in Khorramshahr. Designed by Sarralle Company from Spain.

**Project Name:**

## Electric Arc Furnace Tilting Platform

**Client:**Iran Industries Expansion & Renovation  
Construction Company (MANA Co.)**Project Date:**

Start Date: November 2017

Duration: 4 Month

**Contract Subject:**

Assembly, welding and installation operations and delivery of all works related to EAF Tilting platform in Butia Iranian Steel Company in Kerman. Designed by Danieli Company from Italy.

**Project Name:**

## Sangan iron ore factory

**Client:**

Iran Industries Expansion & Renovation  
Construction Company (MANA Co.)

**Project Date:**

Start Date: December 2017

Duration: 16 Month

**Contract Subject:**

Assembly and installation of flotation equipment, hydro-cyclone, shafts, thickener pump, magnet separator and thickener with an approximate weight of 3400 tons in Sangan iron ore factory.

**Project Name:**

## National Development Pellet Factory

**Client:**

**Asfalt Tous  
Chakad Company**

**Project Date:**

Start Date: February 2017

Duration: 34 Month

**Contract Subject:**

Installation operation of all mechanical equipment Rotary-kiln pelletizing of national development with weight 11500 tons with ALLIS-CHALMERS technology

**Ehdas Omran Sepahan Co.**

+983134598269-70

**Project Name:**

## Pelletizing project of Gohar-Zamin of Sirjan

**Client:**

Asfalt Tous Co.  
Avije Sanat Tous Co.

**Project Date:**

Start Date: December 2016

Duration: 36 Month

**Contract Subject:**

Prefabrication and installation of all mechanical equipment with weight 12,500 tons and implementation of 82,000 inches in diameter along with the pre-commissioning of the Gohar-Zamin pellet factory, Lurgi-Dravo designed by Outotec Company from Germany.

**Project Name:**

## Foulad Sang Lime Project (Mobarakeh Steel Company)

**Client:**

Engineering, construction,  
development and management  
of Tuka EPC Industries

**Project Date:**

Start Date: November 2015

Duration: 9 Month

**Contract Subject:**

Execution of installing mechanical equipment with an approximate weight of 311 tons of the project of installing the remaining equipment for the lime construction of Foolad-Sang - Mobarakeh Steel company.

Ehdas Omran Sepahan Co.

**Project Name:**

## Saba Foulad - Mobarakeh Steel Company

**Client:**

Safa Foulad Sepahan Company

**Project**

Start Date: June 2015

Duration: 3 Month

**Contract Subject:**

Installation operation of steel making plant equipment with weight approximately 1050 tons, including Electric Arc Furnace and Ladle furnace and water cooled ducts of the dust collecting system, auxiliary furnace equipment including dryers and ladle preheaters, carbon oxygen injection lance and Refractory gunning machine. Designed by Danieli Company from Italy.

**Project**

## Dust collection project of direct reduction of Saba

**Client:**

Engineering, construction,  
development and management  
of Tuka EPC Industries

**Project Date:**

Start Date: November 2012

Duration: 7 Month

**Contract Subject:**

Assembly and installation of dust collection  
equipment for the direct reduction of Saba  
Mobarakeh Steel Company Isfahan.

**Project Name:**

## Cardumper No.2 in Mobarake Steel Company

**Client:**Tuka Foulad  
Investment Company**Project Date:**

Start Date: December 2012

Duration: 2 Month

**Contract Subject:**

Completion of the remaining mechanical and steel structure works of the Cardumper No.2 project of Mobarakeh Steel Company, Isfahan, in the form of man-hours at the rate of approximately 3000 man-hours.

**Project Name:**

## Saba Mobarake Stacker & Re-climber

**Client:**Tuka Foulad  
Investment Company**Project Date:**

Start Date: February 2013

Duration: 2 Month

**Contract Subject:**

Completion of the remaining works of the Stacker & Re-climber project of Saba Mobarake Steel Company of Isfahan, in the form of man-hours at the rate of approximately 3000 man-hours.

**Project Name:**

## Saba Direct Reduction Plant of Mobarakeh Steel Company

**Client:****Mobarake Steel Company****Project Date:**

Start Date: October 2011

Duration: 27 Month

**Contract Subject:**

The operation of installing steel structure and mechanical equipment in the Saba direct reduction project (during three contracts); Including the installation of the main pipe rack steel structure, Steel structure of the desulfurization unit, the material handling frame including the gallery, trestle and tower, as well as the mechanical equipment, including the installation of all the rollers and roller bases of the material handling system, with weight approximately 4500 tons, in the direct reduction project of Saba Mobarakeh Steel Company , Isfahan.

**Project Name:**

## Shahid Kharazi Direct Reduction Plant in Mobarakeh Steel Co.

**Client:**

Iran International Engineering Company (IRITEC)

**Project Date:**

Start Date: September 2011

Duration: 10 Month

**Contract Subject:**

Operation of installation of recuperator ducts and installation of fluid equipment and implementation of piping about 145,000 inches in diameter in Shahid Kharazi direct reduction project of Mobarakeh steel complex in Isfahan.

**Client:**

Pars Industries and Mines  
Construction and Installation  
Company (PAMICCO)

**Project Date:**

Start Date: January 2009

Duration: 24 Month

**Contract Subject:**

Installation and commissioning of electric arc furnace with weight approximately 2000 tons and ladle furnace, charging bins for material handling and installation of dust collection equipment for furnace No.2 of Hormozgan Steel Complex. Designed by SMS Demag Company from Germany and SMS Innse from Italy.

**Project Name:**

## Hormozgan steel company Overhead cranes installation

**Client:**

Pars Industries and Mines  
Construction and Installation  
Company (PAMICCO)

**Project Date:**

Start Date: December 2008

Duration: 6 Month

**Contract Subject:**

Installation and commissioning of two 240-ton heavy cranes made by TAIM WESER Spain, about 850 tons, related to steel melting and casting bay in Hormozgan Steel Company.

**Client:**

Iran International Engineering Company (IRITEC)

**Project Date:**

Start Date: March 2008

Duration: 20 Month

**Contract Subject:**

Execution of construction a direct reduction unit with Midrex method includes: installation of steel structure, furnace, reformer box, pressurized tanks and process gases, and construction and installation of daily production and storage bins and conveyors along with the installation of all equipment with an approximate installation weight of 4000 tons.

**Project Name:**

## Vian Hamedan steel making Electric Arc Furnace

**Client****Industrial Building Company(IBC)****Project Date:**

Start Date: July 2007

Duration: 12 Month

**Contract Subject:**

Installation and commissioning of an Electric Arc Furnace and installation and commissioning of a ladle furnace, installation and commissioning of charging bins for materials handling (Ferro Alloy), installation and commissioning of all furnace dust collection equipment, installation and commissioning of oxygen production unit (Oxygen Plan), installation and commissioning of the compressed air production unit (Compressor Room) and installation and commissioning of two overhead cranes of the melting and casting bay with approximately 3000 tons in Vian Steel Complex of Hameden. Designed by Voestalpine Company from Austria.

## Tabas coal washing plant

**Client:**

Pars Industries and Mines  
Construction and Installation  
Company (PAMICCO)

**Project Date:**

Start Date: July 2006

Duration: 9 Month

**Contract Subject:**

The operation of installing mechanical and metal equipment of Tabas charcoal washing factory, including cold commissioning and hot commissioning in Tabas.

## Module F Direct Reduction Plant (Mobarakeh Steel Co.)

**Project Name:**

**Client:**

Faravaresh Co.

**Project Date:**

Start Date: May 2005

Duration: 13 Month

### Contract Subject:

Piping operation about 100,000 inches in diameter, installation and operation of Pump Station including 6.6 kW pumps, full implementation of electrical and instruments including about 250 km of cable laying operations, and setting up about 50 devices of high pressure, medium and control panels, control desk and Control room equipment and about 250 instruments and steel structure installation operations and equipment including ducts, tanks and chimneys. Designed by Kobe Steel Company from Japan.

## Board of Directors

### Engineer Behzad Shahbazi

Chairman of the board  
Mechanical engineer of welding technology  
Shahbazi.behzad38@gmail.com

Bachelor of Mechanical Engineering majoring in welding technology with a history of 25 years of experience in the field of project management and executive phases of steel making plants.

### Engineer Mansour Pourbandari

Chief executive officer(CEO)  
Mechanical engineer of welding technology  
pourbandarimansour@gmail.com

Bachelor of Mechanical Engineering majoring in welding technology with more than 35 managerial and executive experience and expert in negotiation and international trade.

### Engineer Reza Falamarzi

Vice Chairman of the Board of Directors  
Metallurgical Engineer  
rfalamarzi@gmail.com

Bachelor of Metallurgical Engineering with more than 23 management and executive experience in steel making projects.

TAIM-EOS-78218-291016

Khorasan Steel Plant, 30 October 2016

**Subject: Recognition of the construction works performed at Khorasan Steel Plant (Iran)**

TAIM WESER Engineers, contracted by IRASCO / IRITEC for supervision and commissioning of Teeming and Charging Cranes, have been sharing with Ehdas Omran Sepahan Co. (EOS), subcontracted by IRITEC, several steps of the site installation and commissioning of mentioned EOT Cranes, which are a part of an Expansion Project promoted by Khorasan Steel Plant (Iran).

We are pleased to write that the performance of EOS Company has been extraordinary good during all this time. Its managers and workers have been always close and available to solve any technical need; all works and technical problems have been solved successfully.

We would like to mention specifically Mr. Bastani Iraj (Project Manager), Mr. Shahbazi Behzad (Site Manager) and Mr. Arabshahi Siamak and Mr. Torghabehi Masoud (Technical Office Manager) as the leaders of EOS successful team.

We would recommend this Company for the Construction activities of any kind of EOT Crane. The experience of its staff will guarantee the success of the Project.

**To:** EOS  
**Subject:** Recognition of the construction works performed by EOS company at AJS steel making plant

SARRALLE EQUIPOS as engineering, procurement and construction provider company, contracted by AJS/SRT for supervision and commissioning of steel making plant have been sharing with Ehdas Omran Sepahan Co (EOS), several steps of the site installation and commissioning of mentioned steel making plant.

We, as all the team beginning from my point of view as Site manager of SARALLE EQUIPOS, are pleased to announce that the performance of EOS Company has been extraordinarily good during all this time. Its managers and workers have been always close and available to solve any technical need; all works and technical problems have been solved successfully.

We would like to mention specially Mr. Shahbazi Behzad (Project Manager), Mr. Arabshahi Siamak (Site Manager) and Mr. Torghabeh Masoud (Technical Office Manager) as the leaders of EOS successful team.

We would recommend this Company for the Construction activities of any steel making plant. The experience of its staff will guarantee the success of the project.

Best Regards,

Waldo Gondar

بسمه تعالی

مدیریت محترم عامل شرکت

جناب آقای مهندس کیوان آرا

باسلام

احتراما، بدینوسیله به استحضار می رساند علیرغم کمبودها و مشکلاتی که داشتیم با تلاش پیگیرانه که منتج از همدلی صمیمانه و کار گروهی شرکت ایریتک، دستگاه نظارت و پیمانکار نصب (شرکت احداث عمران سپاهان) بود، مونتاژ تجهیزات کوره احیا از ارتفاع ۲۱ متر لغایت ۶۷ متر بانضمام Top Gas و Feed Convayer طی مدت بیست روز به انجام رسید که در نوع خود رکوردی بی نظیر در نصب کوره احیا محسوب می گردد .

لذا ضمن گزارش حضور جنابعالی که با حمایت های بموقع و آماده نمودن بستر این حرکت همیشه باعث دلگرمی مجریان بوده اید، بر خود واجب دانستم تا بعنوان فرد کوچکی از این مجموعه از همه دست اندرکاران که به نحوی در این کار بزرگ شرکت داشتند تشکر و قدردانی نمایم .

با احترام - سمندریان
